

K love serves me by helping me get through my day with the uplifting music that they play every day. If it is replaced by an LPFM broadcaster, I do believe the community would not be the same. K-love provides a service of evangelism. It lets people know that no matter what God is always available. Some people cannot or are not willing to go to church, so K-love helps provide them with spiritual guidance. This service is important to the community because it also provides an outlet for teenagers who are lost and are starting to take the wrong road. If we lose this station what will the teenagers listen to. Gangster Rap, or music that encourages violence and sexual activity? What a waste that would be to take the positive away and leave them with the negative.

Thank You. Norinda Greene.
